Regional Research

Promotion Programme | **Western Balkans**

The Regional Research Promotion Programme in the Western Balkans (RRPP) is managed by the University of Fribourg upon mandate of the Swiss Agency for Development and Cooperation (SDC). It was established with the purpose to advance research in the Social Sciences in the Western Balkan countries Albania, Bosnia and Herzegovina, Kosovo, Macedonia, Montenegro and Serbia. This partnership programme was created following a wide consultation process involving well-respected researchers and research institutions in the region, Switzerland and other European countries. The RRPP operates through three inter-related pillars:

- Provision of grants for research projects dealing with issues related to the transition process in individual countries and in the entire region;
- Provision of methodological colloquia and thematic trainings;
- Enabling and strengthening regional interaction and cooperation (through conferences and other events).
